

Discover the French Lifestyle

COMBINE ENGLISH with travel. The French countryside is a good place to learn how to take your time.

- ❖ Savor regional foods.
- ❖ Discover the castles.
- ❖ Visit the locals.
- ❖ Take a river boat ride.
- ❖ Taste the wines.
- ❖ Walk in the footsteps of pilgrims.

Southwest France.

April 30, 2012 ~ May 4, 2012

SLOW ENGLISH in France. A specially designed English language course for those who want to improve their English while exploring the culture, cuisine and history of Gascony, Southwest France.

The Slow English Seminar will take you out of the classroom and into the world where you will use your senses to explore and discover the French way of life.

The Slow English Seminar includes gentle walking, a delightful picnic, regional food and wines, encounters with locals, visits to historic towns, villages, cloisters, castles, vineyards, rustic farms, and...afternoon *siestes* (naps—an important ingredient of the French slow life).

Seminar participants will come from different corners of the world. English will be your common language.

When you gather around the table to slowly savor the delicious meals prepared by Chef Gilles, you will be encouraged to use English to share your culture, your knowledge, and your impressions.

Of course, you will not leave France without learning a few important phrases in the beautiful French language.
